

Avast Endpoint Protection Plus

Market-leading antivirus, firewall, and antispy for PCs.

Avast delivers easily managed cloud-based and on-premise business security solutions for workstations and servers. We protect more than 230 million endpoints globally to provide your organization with the most-trusted security in the world.

Boot-Time Scan

Award-winning Anti-malware

Sandbox

THE BIG BENEFITS

Trust the most trusted

Combining the protection of a firewall with the most-trusted cloud-based security engine in the industry, Avast Endpoint Protection Plus stops new attacks before they get started. This keeps your business up, running, and safe.

Manage your network

Avast Endpoint Protection Plus lets you choose between an easy-to-use, web-based Small Office Administration console for flat networks and a more robust Enterprise Administration portal for more complex offices.

Remote push deployment

Discover all devices in your network quickly and easily, then deploy customized installation packages from a central console, protecting all devices in your network with minimum effort.

THE TECHNICAL FEATURES

PC workstations

SILENT FIREWALL

Protects with heuristic and behavioral analysis plus a white list.

ANTIVIRUS AND ANTI-MALWARE

The world's most-trusted antivirus and anti-malware engines.

STREAMING UPDATES

Unobtrusive micro-updates keep you protected.

ANTISPAM WITH ANTI-PHISHING

Includes comprehensive spam and phishing filters.

BOOT-TIME SCANS

Detects malware buried deep in your computer's start-up processes.

BEHAVIOR SHIELD

Employs sophisticated logic to detect unusual behavior.

AVAST SANDBOX

Runs unknown files in a virtual environment to protect PCs and networks.

THE TECHNICAL FEATURES

Small office administration (200 devices or less)

WEB-BASED CONSOLE

Provides easy-to-navigate, web-based dashboard to manage security.

AUTO-DISCOVER NEW AND ROGUE SYSTEMS

Immediately notifies you when new or rogue PCs connect.

REMOTE INSTALLATION AND UPDATES

Allows you to secure new or unprotected PCs from your desk.

COMPREHENSIVE REPORTING

Provides customized reports for audits and compliance.

SCHEDULE AND RUN SCANS

Allows you to schedule scans when people aren't working.

REAL-TIME ALERTS

Receive SMS or other alerts for unauthorized activity.

Enterprise administration (more than 200 devices)

CREATE NETWORK HIERARCHY

Organizes devices into a tree structure for rights and policies.

DISCOVER AND DEPLOY REMOTELY

Discovers new PCs so you can deploy security or limit access.

ENHANCED REPORTING

Offers graphical and tabular reports for compliance and auditing.

DYNAMIC GROUPS

Dynamic device grouping capability and detailed filtering options for superior administration capabilities on large networks.

NO DEVICE LIMIT

Suitable for networks of any size.

FULL LOCAL MIRROR

Save bandwidth by only downloading once! Local distribution of signatures and updates enables offline machines to remain fully protected.
